

Congratulations to the Class of 2019!

Valedictorian Marisa Presutto

Parent(s): Anthony and Laurie Presutto

College choice: I will be attending SUNY Geneseo as a Biology major.

Career plans: After completing my undergraduate education, I plan to attend medical school.

What have you enjoyed the most about high school? I have been involved in music and theater for as long as I

can remember. Being a member of The Vocal Jazz Ensemble as well as a part of our theater productions has by far been the highlight of my high school career.

Favorite quote? "Everyone is a genius. But if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid." - Albert Einstein

During the past four years, who has inspired you the most? My sister has been a huge inspiration to me throughout high school. Watching her persevere through medical school and graduate just a few weeks ago has made me incredibly proud. She has taught me so much over the past four years and even though we'll both be leaving this summer, I know that she will continue to inspire me in the future.

What is your advice to your graduating class? What we truly learned these past four years is not what we memorized for our finals. Rather, we learned the skills to problem solve, the ability to mend broken relationships, and the tools for socialization. As time rapidly passes, we may not remember a majority of the things that we learned from high school, but if we are fortunate, we will retain those lessons that are most essential, subconsciously carrying these throughout our lives.

At your high school's 25th reunion, what do you want your classmates to remember you for? I want to be remembered for not conforming to the crowd.

If nothing else, what one thing do you hope to accomplish in your lifetime? In my lifetime, I hope that I'll be able to make a difference. I want to have a positive impact on other people's lives.

Salutatorian Jack Gilbert

Parent(s): Donald and Christine Gilbert

College choice: I have been accepted to the Rochester Institute of Technology Golisano software engineering program in which I hope to pursue my dream of producing software for major companies. The basis of the S.T.E.M field has been an aspiration of mine. I've always taken a fascination

with computers and how they function.

Career plans: I hope to pursue a job working at a large company dedicated in providing quality software products. Such places include Lockheed Martin, SRC, Adobe, etc. Any place that fosters the thought of a technical mind.

What have you enjoyed the most about high school? I've enjoyed the environment the most. I wasn't always the most talkative person, and typically I was considered quiet. But when I got to high school my peers and teachers helped me speak out more and become more socially attuned.

Favorite quote? "Just turn it off and on again, it usually works."

During the past four years, who has inspired you the most? All my teachers have been absolutely wonderful. Each one helped me in their own unique way and helped me mold into the person I am today.

At your high school's 25th reunion, what do you want your classmates to remember you for? I just want them to remember me as being nice to them. I've tried my best to make everyone's life a bit better when they are around me. I offer my help in any way I can offer, be an ear to talk to or a resource for information.

What is your advice to your graduating class? College is not the end all, be all for all. Some of us are destined for greater things beyond the realm of higher education. So pursue what fits your passions.

If nothing else, what one thing do you hope to accomplish in your lifetime? I hope to see myself involved in promotion of the progress of mankind. Even if I'm just a little step in the long walk of progression.

P Superintendent's Perspective

**Superintendent,
Jay Tinklepaugh**

The end of the school year is fast approaching. Students have participated in many exciting extracurricular activities, athletic contests, and fine arts performances. There are several planned celebrations in each of our buildings during the final weeks of school. We look forward to seeing you as we celebrate and honor our students.

Our graduation rate remains one of the highest in the region at 93 percent; marking six years of a graduation rate greater than 90 percent. A new program, Solvay Success Academy, is a new option for students at Solvay High School (SHS). Each year, students entering 9th grade are eligible to apply and work towards a two-year college associate degree while in high school. This new program is in addition to the OCC Advantage Program offered to students; allowing them to obtain a tuition-free associates degree from OCC.

Along with the college program offerings, each building continues to expand enrichment opportunities before and after school for our students. You might remember in 2017, the district was awarded the 21st Century Community

Learning Grant. We now call this grant B.E.S.T. (Building Education Success Together) program. The offerings continue to help students increase academic performance; provide enrichment activities, and support families and their children. Some of the activities include homework help, S.T.E.A.M., recreation activities, art, music, cooking, community service, and field trips. The learning grant runs until 2022.

At the district level, the community support has once again been outstanding. Our district team members designed a budget that continues to be innovative while offering excellent program opportunities for our students. I would like to take this opportunity to thank you for your support for our students and the 2019-20 budget. Educating students is our first priority.

The multi-year capital project approved by voters in 2017 continues. The construction of the new transportation facility has begun, over the summer Solvay Middle School (SMS) will have a new roof as well as many other projects throughout the district will happen during the next few months. These improvements and other projects will deliver an annual savings to the district.

To learn more of upcoming events and capital project updates, please visit our website at www.solvayschools.org. Continue to share your summer adventures with us on Facebook and Twitter @SolvaySchools, by using #SolvayBears, or by emailing sentinel@solvayschools.org.

As always, thank you for all you do to in support of our kids and community! Have a great summer!

Solvay High School Recognized for Yearbook Excellence

The Solvay High School yearbook staff has been recognized by Balfour Yearbooks, receiving an Honorable Mention Certificate of Recognition for its outstanding contribution to scholastic journalism. The Solvay High School yearbook is featured in the 2019 publication of exemplars.

Yearbooks published by Balfour for the 2017-2018 school year were evaluated in one or more of the following areas: theme development, layout design, photo content, secondary packages, and cover design. The "2019 Yearbook Yearbook" publication of exemplars showcases 2018 yearbooks. Balfour honors approximately 11 percent of its yearbook staffs with this distinction, making it all the more exceptional. Congratulations on six consecutive years of recognition!

Solvay High School's yearbook adviser is Kelly Monaghan, and the 2018 yearbook staff included:

- Brielle Bagozzi
- Cee Cee Cavallo
- Sydney Chafee
- Kyra Crossett
- Angela DeMarchi
- Sarah Gerace
- Phoebe Guadagnolo
- Madison Gwynn
- Sophia Marotti
- Caitlin McCann
- Maksym Melnyk
- Catherine Montreal
- Haley Muehl
- Arielle Patterson
- Zachary Suchomski
- Jacob Taclaf
- Delana Thomas

Solvay UFSD Again Named Among “2019 Best Communities for Music Education”

For the second consecutive year, the Solvay Union Free School District has been named one of the “Best Communities for Music Education” by the National Association of Music Merchants! A national distinction, the “Best Communities for Music Education” designation is awarded to districts that demonstrate outstanding achievement in efforts to provide music access and education to all students. Solvay

UFSD is one of only 623 districts to receive this honor in 2019.

Research into music education continues to demonstrate educational,

cognitive, and social skill benefits for children who make music. After two years of music education, research found that participants showed more substantial improvements in how the brain processes speech and reading scores than their less-involved peers. It also found that students who are involved in music are not only more likely to graduate high school, but also to attend college as well.

We’d like to extend our sincere thanks to everyone in the Solvay community who helped make this distinction possible for the second year running. Congratulations!

Kindergarten Registration for the 2019-20 School Year

There is still time to enroll in Kindergarten for the 2019-20 school year.

To begin the registration process, please visit the Central Registration website. Please complete the registration process as soon as possible to help with enrollment projections for the upcoming school year.

For more information about kindergarten registration at Solvay UFSD, please visit the Solvay UFSD Central Registration website.

SHS Students Visit Seneca Army Depot/White Deer Tour

In early April, Solvay High School students took a trip to the Seneca Army Depot and White Deer Tour in Romulus, NY. The field trip was funded through the 21st Century Learning Grant.

During the trip, students learned about The Cold War, and how the Army utilized that area during that time. They were even able to go into one of the Army igloos that was originally built to sustain an atomic bomb attack.

Additionally, students saw a beaver dam, an eagle nest (with an actual eagle in it), several brown deer and 24 white deer! Students learned many interesting nature facts, such as: White deer are not albino, as they are a result of a recessive gene, not a mutation.

All told, it was a fun and educational day!

Free Summer Meals for Kids and Teens

The Solvay Union Free School District will be providing free summer meals for kids and teens during select weeks. The program is open to all residents and non-residents 18 years of age or younger.

If you have any questions about summer meals, please call the Solvay Food Service Program at (315) 484-1403.

The summer meal schedule is as follows:

Elementary School	High School
July 8 through July 25 (closed Fridays)	July 1 through Aug. 9 (closed July 4 & Fridays)
Breakfast: 8:30 - 9 a.m.	Breakfast: 7:30 - 9 a.m. and
Lunch: 12 - 12:30 p.m.	Lunch: 11 a.m. - 12:30 p.m.

Solvay High School Class of '79

40th Reunion

August 17, 2019, 4:00 p.m. @ Kingdeski's Landscaping

Author Alyssa Capucilli Visits Students to Celebrate Reading

In late March, Solvay Elementary School students got a visit from Alyssa Satin Capucilli, author of the beloved “Biscuit” series. With over 75 titles in the series (and over twenty-one million books in print), “Biscuit” has been deemed a modern classic. It is one of the most borrowed books throughout libraries as it continues to be embraced by beginner readers, parents, librarians, and educators.

We all have stories to tell. Mrs. Capucilli explained how a personal experience can launch our imaginations and help us create our own stories. As the visit progressed, students laughed and read along with Mrs. Capucilli, as Biscuit practiced his familiar bedtime routine. Using repetition, Mrs. Capucilli helps emergent readers practice familiar words and phrases to build their confidence in reading. She also explained her writing process and showed students how a book is made.

Mrs. Capucilli was quite impressed with the thoroughness of the questions. A special thank you goes out to Mrs. Capucilli for taking the time to visit the school!

Students Nominated for Luncheon With Principal

Recently, teachers from multiple classrooms nominated some students to attend a Principal’s Luncheon.

The students were nominated based on the qualities they show that make them great role models. Following the nominations, Principal Christine Miczan ate lunch with each group throughout the week.

The students shared stories about school and life with their principal, and she shared cookies and treats as well! Principal Miczan especially enjoyed the event and is looking forward to future luncheons with new groups of responsible, respectful, and safe group of students.

Students and Families Celebrate the 100th Day of School

Earlier this year, Lisa Reynolds and Amber Welch’s classes completed a “100th Day of School” project with their families. They created posters, t-shirts, and necklaces using 100 of some kind of object.

The students took great pride in their projects and shared them in class!

SHS Students Make Dessert for Full Plate Dinner

Ms. Klier’s students, William Black, Sean Mahar and Jonny Caldwell, made red velvet cup cakes. Mrs. Young’s student, Destiny Hurry, made homemade cream cheese frosting for them. The students were baking for the Full Plate Dinner.

Solvay "Baldcats" Shave Heads, Raise Money for Cancer Research

At the end of March, the Solvay Bearcats led a team that participated in the St. Baldrick's Foundation charity event! Any member of the Solvay community was welcomed to join the team.

Held at Kitty Hoynes Irish Pub & Restaurant, members of the "Solvay Baldcats" were asked to shave their heads to help raise cancer awareness in the community, as well to help raise money for childhood cancer research.

The Baldcats team raised a whopping \$1,606 for cancer research! We'd like to thank all of the members of the squad who shaved their heads for the event: (Seventh graders Noah Draper, Zachary Komosinski, Ian Ridgeway, Timothy Williams; Ted Williams - parent; Collin Thompson - seventh grade math teacher, team captain; and Adam Sgroi - seventh grade social studies teacher.) Great job, Baldcats!

SMS Students Prepare Meals for Charity

On Friday, April 5, the eighth grade class participated in the "Feed My Starving Children" event held at the Vineyard Church.

During the visit, the students helped measure, pack, label, and sort meals, all while

hanging out with their classmates, enjoying some music, and engaging in some friendly competition to meet the goal. The students even got to try a sample of what they helped create!

The meals prepared by our students will be sent throughout the world, helping malnourished children and families in some of the poorest countries. Great job by these selfless eighth-graders, who had a fun afternoon helping those in need!

Builders Club Collects Donations for Charity

In April, the Builders Club sponsored a fun afternoon that benefitted a good cause.

Throughout the week of April 8, Builders Club students collected personal care items such as toothbrushes and toothpaste, combs, soap, and deodorant to donate to local charities in need.

For every item brought in, students were given a raffle ticket providing the opportunity to "pie" a teacher in the face the Friday before break. The afternoon of April 12 kicked off with some friendly, yet competitive games, but ended with some brave teacher volunteers taking a pie to the face.

Amidst the Friday activities, it was determined that the Solvay Middle School students accrued a whopping 200 personal care items! These donations were boxed up and sent to the Rescue Mission of Syracuse (which will provide products to the homeless shelters), as well as to the McMahon Ryan Child Advocacy Center. A big shout out (and thank you) to all the teachers that willingly got pied, as well as Mr. Kulibert for making the awesome stand, and Mr. Gottlieb for allowing us to hold the event.

Exceptional job, Solvay Middle School! Thank you students and staff.

Students Make Triumphant Return to Science Olympiad

Over the winter, Solvay High School returned to the 35th Annual Science Olympiad Competition held at Le Moyne College! Mrs. Lisi and Mrs. Sherlock generated interest in bringing back this competitive science club after Solvay had pulled out from the competition several years ago.

The team, composed of nine Solvay High School students encompassing all four grade levels, competed in a wide range of scientific events and activities, including hand-written assessments, collaborative group work, and designing and engineering their own products.

The two top-scoring events for Solvay included "Anatomy & Physiology" and "Thermodynamics." Rachel Maloney and Talya Toussaint competed in the physiology event, and were assessed on their understanding of the human cardiovascular, lymphatic, and excretory systems. Alien Ali competed in the "Thermodynamics" contest, which involved the engineering of an insulating device that was designed

to retain heat, in addition to completing a written test on thermodynamic concepts.

Mrs. Lisi & Mrs. Sherlock are very proud of the hard work their team put into this season, and look forward to beginning preparation for next year's competition! Thank you to all of our students for their dedication, hard work, and positive attitudes!

Solvay High School to Offer Defensive Driving Course

This summer, the Onondaga-Cortland-Madison BOCES will be offering a Driver Education program at Solvay High School. The program will consist of 24 hours of classroom instruction, as well as 24 hours of vehicle instruction. Classroom instruction will be held at the high school at defined times:

July 9 - Aug. 7

Mondays - Thursdays from 5:30 - 7 p.m.

The Able II Driving School will set up times for in-vehicle instruction following student registration.

Students interested in attending the program must be at least 16 years of age and hold a valid New York State driver's permit. The cost of the course will be \$549, which will include the cost of the program's textbook.

If you're interested in registering your student(s), please call (315) 453-4600. Registration ends on June 28. Program space is limited.

SHS Juniors Attend Open House at OCC

On Friday, April 12, a group of juniors made a visit to Onondaga Community College to attend an open house.

The students toured the campus and dorm areas, and also participated in panel discussions with campus personnel. It gave the students a valuable glimpse at what college (and dorm) life entails.

Bus Drivers Wanted

The Solvay Union Free School District has an immediate need for substitute school bus drivers (CDL with a PS endorsement are preferred, but not required) and bus attendants!

Interested in filling out an application? Please stop by the Transportation Office, located at 690 State Fair Blvd., Syracuse (Lakeland) between the hours of 8 a.m. and 2 p.m.

No phone calls please. Background checks are required before any and all appointments.

New Makerspace Invites Students to Learn through Creation

The High School Library is now home to a makerspace.

We have transformed an under utilized computer lab into a hands-on learning space. Students now have the opportunity to be trained in activities such as 3D printing, and will be able to explore and invent independently.

In addition to the Makerbot 3D printer, students will also have access to many other tools of creation, including sewing machines, a green screen, photo/video/audio editing tools, and Raspberry Pi computers. This opens up endless possibilities for problem solving, prototyping, and the opportunity to express what they've learned!

Key Club Students Prepare Meal at Ronald McDonald House

The visiting Key Club members, pictured here from left to right: Marisa Presutto, Maksym Melnyk, Hailey Kliphon, Kirstyn Devereaux, Courtney Wade and Amer Lazraus.

On Friday, April 26, members from the Solvay High School Key Club brought a smile to the faces of many of families staying at The Ronald McDonald House! The club both donated the ingredients for and prepared a taco-themed dinner for the group!

It was a very rewarding experience for all involved. Great job putting some positive energy out into the world, Key Club!

SHS Student Awarded Scholarship from Leadership Institute

Lazara Morales Cespedes is a senior who came to the area from Cuba, and has been living in the United States for about two years. Some time after her arrival, Lazara was chosen to participate in the Puerto Rican Hispanic Youth Leadership Institute (PRHYLI) in both her junior and senior years.

Students who participate in the institute are required to attend six sessions of leadership training during the day. Then, some are chosen to attend a three day conference in Albany, where they meet with legislative representatives and participate in more leadership events. This year, Lazara was chosen to attend the conference, where she was awarded the Angelo Del Toro Scholarship! This scholarship will provide her with \$1,200 to attend a college of her choice.

"Going to Albany with my delegation for two years in a row is one of the best experiences in my life," said Lazara. "I was able to go to the Justice building and meet many important figures in our government."

Lazara keenly recognized the value of these events, and the unique opportunities they've provided: "I am very grateful for the opportunities and experiences I gathered from the program. Being part of PRHYLI, and specifically part of the Syracuse delegation, changed my life and perspective completely. I realized I can be an agent of change in society, and that every little action matters."

We congratulate Lazara on this tremendous achievement, and for her significant contributions to this year's leadership institute!

Solvay Art Students Deliver Portraits to Rohingya Children

Recently, students from Ms. McGraw's art class received news that their portraits were delivered to Rohingya children via the Memory Project!

The Memory Project is a unique initiative through which art students create portraits for children and teens around the world that have been orphaned, neglected or disadvantaged. To begin, some of Solvay's advanced art students received photos of Rohingya kids who were currently living in refugee camps. With the photos of their subjects at hand, the Solvay students got to

work, creating portraits of the Rohingya kids that would be packaged up and sent back to the point of origin.

"The Memory Project is passionate about breaking barriers and uniting youth from different cultures," said Ms. McGraw. "The goal of the project is to inspire caring, global friendship, and a positive sense of self. It also allows students to practice kindness, empathy, and service to others."

This was the district's ninth year participating in the project!

Extraordinary Talent(s) - A Follow Up

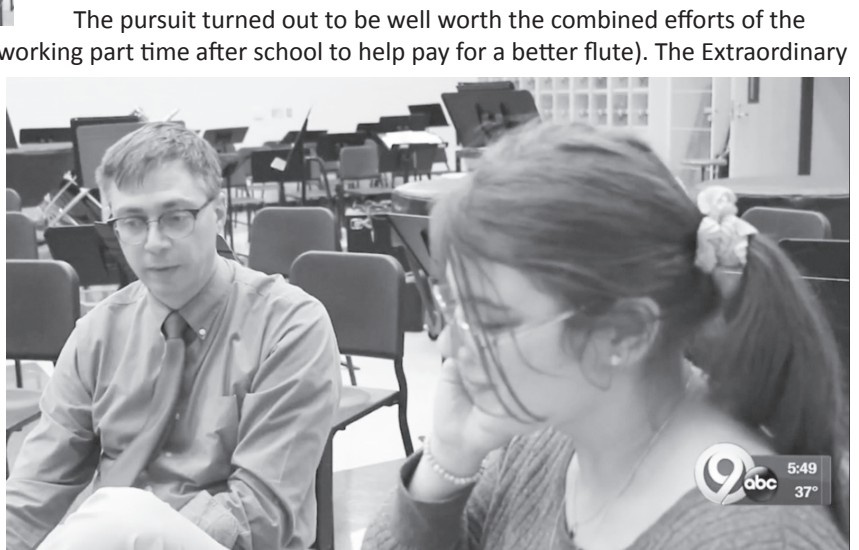

Earlier this spring, News Channel 9 released a follow-up on Marcia Hunt as part of its "Extraordinary Talent of the Week" feature!

The original feature focused on Marcia's exceptional talent with the flute, while also touching on the incredible support she's received from Solvay's music teachers. In reaching out to the "Extraordinary Talent" production, it was the hope of these instructors that they might be able to help finance a professional-grade instrument for Marcia to use in her pursuit of a music degree at the State University of New York at Fredonia. She had already been accepted at the institution based on her academic merit.

Solvay staff and Marcia herself (who was working part time after school to help pay for a better flute). The Extraordinary Talent fund was able to split the cost of a professional flute for Marcia to use at Fredonia, where she will indeed pursue a music degree. Congratulations, Marcia!

To make this story even more exciting, Solvay music teacher Gerry Fitzgerald was also featured as an Extraordinary Talent, getting some well-deserved recognition for his tireless efforts toward enriching the lives of his students with music, and helping put them in the best position to chase their dreams after graduation.

SES Students Participate in Crayola's Colorcycle Program

Students, teacher, and staff members throughout the district have been helping Mrs. Boileau's and Mrs. Clemente's second grade class learn how important recycling can be. Since January, Mrs. Boileau's students have been collecting used and dried up markers and highlighters as a part of Crayola's Colorcycle program. In May, Maddy Patterson and Makenzie Dwyer helped to box up 25 pounds of markers and highlighters to mail to Crayola's headquarters. Mrs. Boileau will continue to collect markers and highlighters (they can be any brand and size) during the 2019-2020 school year. If you have any dried up and used markers or highlighters that you would like to donate to this important recycling event, please feel free to mail them or drop them off at Solvay Elementary School c/o Melissa Boileau 701 Woods Road, Solvay, New York 13209.
