INDEPENDENT AUDITOR'S REPORT

Board of Education
Solvay Union Free School District
Solvay, New York

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Solvay Union Free School District, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Solvay Union Free School District's basic financial statements as listed in the table of contents. We have also audited each fiduciary fund type of Solvay Union Free School District, as of and for the year ended June 30, 2017, as displayed in Solvay Union Free School District's basic financial statements.

Management's Responsibility for the Financial Statements

Solvay Union Free School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating

the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information as well as each fiduciary fund type of Solvay Union Free School District as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedule of funding progress-other postemployment benefit plans, schedule of revenues, expenditures and changes in fund balance, schedule of district contributions and schedule of district's proportionate share of the net pension liability on pages 4–12, 46-49, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Solvay Union Free School District's basic financial statements. The schedule of change from adopted to final budget and the real property tax limit, the schedule of project expenditures — capital projects fund and investment in capital assets, net of related debt (the supplemental information) on pages 50-52 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information is the responsibility of management and has not been subjected to the auditing procedures applied in the audit procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 18, 2017 on our consideration of Solvay Union Free School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Syracuse, New York

Lossner ST Am CPAs

September 18, 2017

The following is a discussion and analysis of the Solvay Union Free School District's (the District) financial performance for the fiscal year ended June 30, 2017. The section is a summary of the District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

Financial Highlights

- The rates charged by the New York State Teacher's Retirement System decreased from 13.26% to 11.72% of member payroll. This resulted in a decrease in expenses of approximately \$175,000.
- The District incurred \$3,472,000 of capital expenditures in the current year related to the 2016 construction project and Smart Schools Bond Act project.

Overview of the Financial Statements

This annual report consists of three parts: MD&A (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide* financial statements that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual funds* of the District, reporting the District's operations in *more detail* than the district-wide statements. The fund financial statements concentrate on the District's most significant funds with all other non-major funds listed in total in one column.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short term* as well as what remains for future spending.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of MD&A highlights the structure and contents of each of the statements.

Figure A-1 Major Fea	tures of the District-Wide and		al Statements
	District Marie		
Scope	District-Wide Entire District (except fiduciary funds)	Governmental Funds The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Fiduciary Funds Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities monies
Required financial statements	Statement of net position Statement of activities Reconciliation of governmental funds revenues, expenditures and changes in fund balances to the Statement of activities Reconciliation of governmental funds balance sheet to the Statement of net position.	Balance sheet Statement of revenues, expenditures, and changes in fund balances	Statement of fiduciary net position Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus
Type of asset/deferred outflows of resources/ liability/deferred inflows of resources information	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources both financial and capital, short-term and long-term	Generally, assets and deferred outflows of resources expected to be used up and liabilities and deferred inflows of resources that come due or available during the year or soon thereafter; no capital assets or long-term liabilities included	All assets, deferred outflows of resources (if any), liabilities and deferred inflows of resources (if any) both short-term and long-term; funds do not currently contain capital assets, although they can

Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid
------------------------------------	--	---	---

District-Wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how it has changed. Net position — the difference between the District's assets, deferred outflow of resources, liabilities and deferred inflows of resources — is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are shown as *governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and State formula aid finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

• Some funds are required by New York State law and by bond covenants. Generally, the District is required by New York State General Municipal Law (para. 36) to follow the system of accounts formulated and prescribed by the New York State Comptroller.

• The District establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as Federal grants).

The District has two kinds of funds:

- Governmental Funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information in the notes to the financial statements explains the relationship (or differences) between them.
- Fiduciary Funds: The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the District's governmental activities. (Rounded to the nearest thousand)

Table 1:

	Government and Total Sc	tal Activities hool District	Total Percentage Change
	2017	2016	2016 - 2017
Current and Other Assets	\$ 13,357,000	\$ 12,263,000	8.92%

Financial Analysis of the School District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with the New York State Comptroller.

Governmental Funds

The purpose of the District's governmental funds is to account for and provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The unreserved fund balance is divided between assigned or unassigned balances. The District has designated portions of the unreserved fund balance to earmark resources for certain government-wide liabilities and postemployment obligations that are not recognized in the governmental funds. Fund balances for capital projects are restricted by State law to be spent for the purpose of the fund and are not available for spending at the District's discretion.

Financial Analysis of the School District's Funds (continued)

General Fund Budgetary Highlights

The budgetary comparison information on page 47 presents both adopted and final modified budget totals compared with actual results for the General Fund for the year ended June 30, 2017. The significant variances between the adopted and the final budget for 2017 were as follows:

Voter Approved Budget	\$ 32,413,000
Board Approved Budget Adjustments	(370,525)
20165 Additional Appropriations: Encumbrances Carryover	588,783
Final Budget	\$ 32,631,258

Capital Assets and Debt Administration

Capital Assets

At June 30, 2017, the District had approximately \$64 million invested in a broad range of capital assets including buildings, transportation equipment, computer equipment, and furniture and fixtures. Table 4 categorically illustrates the District's capital assets.

Table 4:	Governmen and Total So	Total Percentage Change					
	2017	2016 2016 - 2017 00 \$ 247 500 0 00%					
Land	\$ 247,500	\$	247,500	0.00%			
Work in Progress	5,302,975		2,018,021	162.78%			
Buildings and Improvements	51,503,750		51,518,031	-0.03%			
Machinery and Equipment	7,298,508		6,817,698	7.05%			
Total	\$ 64,352,733	\$	60,601,250	6.19%			

Long-Term Obligations

At June 30, 2017, the District had approximately \$35 million in long-term obligations. Table 5 provides a summary of the debt. The notes to the basic financial statements provide additional details regarding this debt.

Table 5:				Total Percentage
	 Total Scho	ool Di	istrict	Change
	2017		2016	2016 - 2017
General Obligation Bonds				
(Financed with Property Taxes)	\$ 15,375,146	\$	18,318,234	-16.07%
Other Postemployment Benefits	18,398,423		16,167,558	13.80%
Pension Liability	989,497		1,701,662	-41.85%
Compensated Absences	 640,488		560,054	14.36%
Total Long-term Liabilities	\$ 35,403,554	\$	36,747,508	-3.66%

Factors bearing on the District's Future

- At June 30, 2017, the District had exhausted 2.98% of its constitutional debt limit.
- Employer contributions for Teachers' Retirement System and Employees' Retirement System may continue to fluctuate but not as much as recent years.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the School District Business Office at PO Box 980, Syracuse, New York 13209.

Note 1 - Summary of certain significant accounting policies

The financial statements of the Solvay Union Free School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting principles and policies used by the District are described below:

A) Reporting entity:

The Solvay Union Free School District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of 5 members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, *The Financial Reporting Entity*, as amended by GASB Statement 39, *Component Units* and GASB Statement 61, *The Financial Reporting Entity: Omnibus* an amendment of GASB Statements No. 14 and No. 34. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District and its component unit(s) and other organizational entities determined to be includable in the District's financial reporting entity. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief description of certain entities included in the District's reporting entity.

i) Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be found at the District's business office. The District accounts for assets held as an agent for various student organizations in an agency fund.

Note 1 - Summary of certain significant accounting policies (continued)

B) Joint venture:

The District is a component district in Onondaga-Cortland-Madison BOCES. A Board of Cooperative Education Services (BOCES) is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES' Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year, the District was billed \$2,975,625 for BOCES administrative and program costs.

The District's share of BOCES aid amounted to \$1,099,648.

Financial statements for the BOCES are available from the BOCES administrative office.

C) Basis of presentation:

i) District-wide statements:

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, State aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

Note 1 - Summary of certain significant accounting policies (continued)

The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

ii) Fund financial statements:

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

<u>General Fund</u>: This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

<u>Special Revenue Funds</u>: These funds account for the proceeds of specific revenue sources, such as federal and State grants, that are legally restricted to expenditures for specified purposes, child nutrition operations, and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties. Special revenue funds include the following:

<u>Special Aid Fund:</u> Used to account for proceeds received from State and federal grants that are restricted for specific educational programs.

<u>School Lunch Fund:</u> Use to account for child nutrition activities whose funds are restricted as to use.

<u>Capital Projects Funds</u>: These funds are used to account for the financial resources used for acquisition, construction, or major repair of capital facilities. For these funds, each capital project is assessed to determine whether it is a major or non-major fund. Those capital projects that are determined to be major are reported in separate columns in the financial statements. Those that are determined to be non-major are reported in the supplemental schedules either separately or in the aggregate.

<u>Debt Service Fund</u>: This fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities. When a capital asset is sold and all or a portion of the bonds used to finance the capital asset are outstanding, this fund must be used to account for the proceeds from the sale of the capital assets up to the balance of related bonds outstanding.

Note 1 - Summary of certain significant accounting policies (continued)

The District reports the following fiduciary funds:

<u>Fiduciary Fund</u>: Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District, and are not available to be used. The District has the following class of fiduciary funds:

<u>Agency funds</u>: These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups or extraclassroom activity funds and for payroll or employee withholding.

D) Measurement focus and basis of accounting:

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transaction or events for recognition in the financial statements.

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 90 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E) Property taxes:

Real property taxes are levied annually by the Board of Education no later than September 1, 2016. Taxes were collected during the period September 2, 2016 to October 31, 2016.

Note 1 - Summary of certain significant accounting policies (continued)

Uncollected real property taxes are subsequently enforced by Onondaga County, in which the District is located. The Counties pay an amount representing uncollected real property taxes transmitted to the Counties for enforcement to the District no later than the following April 1.

F) Restricted resources:

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes.

G) Interfund transactions:

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditure and revenues to provide financing or other services.

In the district-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 7 for a detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenue activity.

H) Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including compensated absences, post-employment benefit obligations, pension asset and liabilities, potential contingent liabilities and useful lives of long-lived assets.

Note 1 - Summary of certain significant accounting policies (continued)

I) Cash and investments:

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the District's investment policies. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts. Investments are stated at fair value.

J) Accounts receivable:

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

K) Inventories and prepaid items:

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value that approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount. Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the district-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed. A reserve for these non-liquid assets (inventories and prepaid items) has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures.

L) Capital assets:

Capital assets acquisitions are reported at historical costs. Donated assets are reported at estimated fair market value at the time received. Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization <u>Threshold</u>	Depreciation <u>Method</u>	Estimated <u>Useful Life</u>
Buildings and improvements Furniture and equipment	\$10,000	Straight Line	50 years
	5,000	Straight Line	5-10 years

Note 1 - Summary of certain significant accounting policies (continued)

M) Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has three items that qualify for reporting in this category. First is the deferred charge on refunding reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportion share of total contributions to the pension systems not included in pension expense. The third item is the District contributions to the pension systems (TRS and ERS Systems) subsequent to the measurement date.

In addition to liabilities, the statement of net position or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. First arises only under a modified accrual basis of accounting and is reported as unavailable revenue – property taxes. The second item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension liability (ERS System) and difference during the measurement periods between the District's contributions and its proportion share of total contributions to the pension systems not included in pension expense. The third item is revenues from grants received that have met all other eligibility requirements except those related to time restrictions.

N) Unearned and deferred revenues:

The District reports unearned revenues on its Statement of Net Position and its Balance Sheet. On the Statement of Net Position, unearned revenue arises when resources are received by the District before it has legal claim to them, as when grant monies are received prior to incurrence of qualifying expenditures. In subsequent periods, when the District has legal claim to resources, the liability for unearned revenue is removed and revenue is recognized.

O) Vested employee benefits:

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

Note 1 - Summary of certain significant accounting policies (continued)

The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement 16, Accounting for Compensated Absences, the liability has been calculated using the vesting/termination method and an accrual for that liability is included in the District-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the fund statements only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the District provides post-employment health insurance coverage and survivor benefits to retired employees and their survivors in accordance with the provision of various employment contracts in effect at the time of retirement. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as expenditure.

P) Short-term debt:

The District may issue Revenue Anticipation Notes (RAN) and Tax Anticipation Notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued.

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date.

Note 1 - Summary of certain significant accounting policies (continued)

The District may issue deficiency notes up to an amount not to exceed 5% of the amount of that same year's annual budget in any fund or funds arising from revenues being less than the amount estimated in the budget for that fiscal year. The deficiency notes may mature no later than the close of the fiscal year following the fiscal year in which they were issued. However, they may mature no later than the close of the second fiscal year after the fiscal year in which they were issued, if the notes were authorized and issued after the adoption of the budget for the fiscal year following the year in which they were issued.

Q) Accrued liabilities and long-term obligations:

Payables, accrued liabilities and long-term obligations are reported in the District-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other postemployment benefits payable, and compensated absences that will be paid from governmental funds, are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

R) Equity classifications:

District-wide statements

In the District-wide statements there are three classes of net position:

Net investment in capital assets – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.

Restricted net position – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – reports the balance of net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the District.

Note 1 - Summary of certain significant accounting policies (continued)

Fund statements

In the fund basis statements there are five classifications of fund balance:

Non-spendable fund balance – includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Non-spendable fund balance includes the inventory recorded in the School Lunch Fund of \$15,547.

Restricted – includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the General fund are classified as restricted fund balance. The District has established the following restricted fund balances.

Capital

According to Education Law §3651, fund must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the General Fund under Restricted Fund Balance. Voters approved a maximum reserve of \$1,000,000 in May 2015 for a period of ten years.

Employee Benefit Accrued Liability

According to GML §6-p, fund must be for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

Workers' Compensation

According to GML §6-j, fund must be used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or excess applied to the appropriations of the next succeeding fiscal years' budget.

Note 1 - Summary of certain significant accounting policies (continued)

Retirement Contributions

According to GML §6-r, the purpose of this fund is to accumulate moneys for the payment of retirement contributions to the New York State and Local Employees' Retirement System ("ERS"), pursuant to the Retirement and Social Security Law. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board.

Tax Certiorari Reserve

According to Education Law §3651.1-a, fund must be used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount that might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies. The reserve is primarily composed of proceedings beginning in July 2016.

Unemployment Insurance Reserve

According to GML §6-m, fund must be used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as restricted fund balance in all funds other than General Fund, since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year. Encumbrances held by the district at June 30, 2017 totaled \$210,238.

Note 1 - Summary of certain significant accounting policies (continued)

Restricted fund balance includes the following:

Description	
Capital Reserve	\$ 1,000,000
Workers' Compensation Reserve	1,750,000
Unemployement Insurance Reserve	200,000
Reserve for Employee Benefit Accrual Liability	1,500,000
Reserve for Retirement Contributions	1,250,000
Reserve for Insurance	100,000
Reserve for Tax Certiorari	 296,943
	\$ 6,096,943

Committed – includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the Districts highest level of decision making authority, i.e., the Board of Education. The District has no committed fund balances as of June 30, 2017.

Assigned – includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of General fund are classified as Assigned Fund Balance in the General Fund.

Unassigned – includes all other General Fund net assets that do not meet the definition of the above four classifications and are deemed to be available for general use by the District.

New York State Real Property Tax Law 1318 limits the amount of unexpended surplus funds a school district can retain to no more than 4% of the School District's budget for the General Fund for the ensuing fiscal year. Non-spendable and restricted fund balance of the General Fund are also excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation. For the year ended June 30, 2017, the balance of the District's unassigned fund in the General Fund exceeds the 4% limitation. See Supplemental Schedule #5 for more information.

Order of Use of Fund Balance:

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance and unassigned fund balance at the end of the fiscal year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than General Fund are classified as restricted fund balance. In the general fund, committed fund balance is determined next and then assigned. The remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

Note 1 - Summary of certain significant accounting policies (continued)

S) New accounting standards

The District has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2017, the District implemented the following new standard issued by GASB:

GASB has also issued Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, effective for the year ending June 30, 2018.

GASB has issued Statement No. 77, *Tax Abatement Disclosures*, effective for the year ending June 30, 2017. The implementation did not have a material impact on these financial statements.

T) Future changes in accounting standards

GASB has issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. The District is currently studying the statement and plans on adoption if required, which will be for the June 30, 2018 financial statements.

Note 2 - Explanation of certain differences between fund statements and District-wide statements

Due to the differences in the measurement focus and basis of accounting used in the funds statements and the District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the District-wide statements, compared with the current financial resources focus of the governmental funds.

A) Total fund balances of Governmental Funds versus Net Position of Governmental Activities:

Total fund balance of the District's governmental funds differ from "net position" of governmental activities reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheets.

B) Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities:

Differences between the funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of three broad categories. This reconciliation is performed on page 18.

Note 2 - Explanation of certain differences between fund statements and District-wide statements (continued)

i) Long-term revenue differences:

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

ii) Capital related differences:

Capital related differences include the difference between proceeds for the sale of capital assets reported on fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the fund statements and depreciation expense on those items as recorded in the Statement of Activities.

iii) Long-term debt transaction differences:

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

iv) Pension differences:

Pension differences occur as a result of changes in the District's proportion of the collective net pension asset/liability and differences between the District's contributions and its proportionate share of the total contributions to the pension systems.

Note 3 - Stewardship, compliance and accountability

Budgets

The District administration prepares a proposed budget for approval by the Board of Education which in turn is either approved or disapproved by eligible voters in the District.

The voters of the District approved the proposed appropriation budget for the General Fund on May 17, 2016.

Appropriations are adopted at the program line item level.

Note 3 – Stewardship, compliance and accountability (continued)

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year. Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as reservations of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

The Capital Projects had a deficit fund balance of \$1,074,383, which is primarily related capital outlay from the 2016 Construction Project. Future short term financing will be converted to long-term financing obligation in the near future. When converted to long-term financing, the District will recognize the appropriate amount of revenue for this financing which will fund the current deficit balance.

Note 4 - Cash and cash equivalents

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District's investment policies, as discussed previously in these Notes.

Total financial institution bank balances at year-end, per the bank, were \$11,937,561. These deposits are insured or collateralized with securities held by the financial institution in the District's name.

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year-end includes \$7,752,213 within the governmental funds and \$186,133 in the fiduciary funds.

Note 5 - Capital assets

Capital asset balances and activity were as follows:

	Beginning		Reclassifications/	Ending
Governmental activities:	Balance	Additions	Deletions	Balance
Capital assets that are not depreciated:				
Land	\$ 247,500	\$ -	\$ -	\$ 247,500
Construction in progress	2,018,021	3,377,474	(92,520)	5,302,975
Total nondepreciable	2,265,521	3,377,474	(92,520)	5,550,475
Capital assets that are depreciated:				
Buildings and improvements	51,518,031	-	(14,281)	51,503,750
Furniture and equipment	3,131,548	255,160	(14,073)	3,372,635
Vehicles	3,686,150	459,397	(219,674)	3,925,873
Total depreciable assets	58,335,729	714,557	(248,028)	58,802,258
Less accumulated depreciation:				
Buildings and improvements	(16,047,226)	(961,149)	-	(17,008,375)
Furniture and equipment	(2,551,481)	(134,335)	14,073	(2,671,743)
Vehicles	(2,064,836)	(376,193)	219,674	(2,221,355)
Total accumulated depreciation	(20,663,543)	(1,471,677)	233,747	(21,901,473)
Total depreciated assets, net	\$ 39,937,707	\$ 2,620,354	\$ (106,801)	\$ 42,451,260
Depreciation expense was charged to governmental functions as follows:				
General support		\$ 1,008,835		
Instruction		172,333		
Pupil transportation		290,509		
,		\$ 1,471,677		

Note 6 - Long-term obligations

Long-term obligations and activity for the year are summarized below:

, ,	Beginning			Ending	
	Balance	Issued	Redeemed	Balance	One Year
Government Activities					
Bonds payable	\$ 18,318,234	\$ -	\$ 2,943,088	\$ 15,375,146	\$ 3,053,088
Other Obligations					
Due to TRS	1,614,409	-	166,602	1,447,807	1,447,807
Due to ERS	107,386	2,810	-	110,196	110,196
Net pension liability	1,701,662	-	712,165	989,497	989,497
Other postemployment benefits payable	16,167,558	3,430,009	1,199,144	18,398,423	3,430,009
Compensated absences	560,054	80,434		640,488	
Total Long-term Obligations	\$ 38,469,303	\$ 3,513,253	\$ 5,020,999	\$ 36,961,557	\$ 9,030,597

Note 6 - Long-term obligations (continued)

Interest paid and expensed on long-term obligations for the year approximated \$651,639.

The following is a schedule of bonds outstanding at June 30, 2017:

	Date of Original	Original	Date of Final	Interest	Outstanding
Payable from/ Description	Issue	Amount	Maturity	Rate (%)	Amount
Refunding of 2001 Bonds	10/27/2011	\$ 3,935,000	6/30/2021	2.00-3.00%	\$ 1,695,000
Refunding of 2012 Bonds	8/1/2012	\$ 17,695,000	6/15/2025	2.00-3.00%	9,245,000
Serial Bonds 2010	6/15/2010	\$ 2,610,198	6/15/2023	3.25-4.00%	1,525,000
Serial Bonds 2014	10/17/2014	\$ 540,000	10/15/2020	1.50-1.75%	335,000
Serial Bonds 2016	6/15/2016	\$ 2,235,000	6/15/2030	2.00-5.00%	2,145,000
Serial Bonds 2016-Premium	6/15/2016	\$ 463,234	6/15/2030	2.00-5.00%	430,146
					\$ 15,375,146

The following is a summary of the maturity of long-term indebtedness:

	Principal	Interest	Total
Fiscal year ended June 30,		_	
2018	3,053,088	477,450	3,530,538
2019	2,203,088	395,963	2,599,051
2020	2,273,088	343,687	2,616,775
2021	2,228,088	264,194	2,492,282
2021-2026	4,685,441	507,719	5,193,160
2026-2030	932,353	102,500	1,034,853
Totals	\$ 15,375,146	\$ 2,091,513	\$ 17,466,659

Note 7 - Interfund balances and activity

	Interfund				Interfund			
	Receivable		Payable		Revenues		Expenditures	
General Fund	\$	572,613	\$	49,509	\$	-	\$ 3,825,	345
Special Aid Fund		-		437,287	2	21,026		-
School Lunch Fund		-		135,326		1,105		-
Debt Service Fund		29,268		-	3,5	64,145		-
Capital Projects Fund		49,491		29,268		85,489	46,	420
Total government activities		651,372		651,390	3,8	371,765	3,871,	765
Fiduciary Agency Fund		18						-
	\$	651,390	\$	651,390	\$ 3,8	371,765	\$ 3,871,	765

The District typically transfers from the General Fund to the Capital Fund to help fund capital renovations and additions. The district also transfers from the General Fund to the Special Aid fund the local portion of the Special Education Summer School Program. The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are expected to be repaid within one year.

Note 8- Pension plans

General Information

The District participates in the New York State Employees' Retirement System (NYSERS) and the New York State Teachers' Retirement System (NYSTRS). These are cost-sharing multiple employer public employee retirement systems. The Systems offer a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

Provisions and Administration

A 10-member Board of Trustees of the New York State Teachers' Retirement Board administers TRS. TRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the New York State Retirement and Social Security Law (NYSRSSL). Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer electsto participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. TRS issues a publicly available financial report that contains financial statements and required supplementary information. The report may be obtained by writing to NYSTRS, 10 Corporate Woods Drive, Albany, New York 12211-2395 or by referring to the TRS Comprehensive Annual Financial report, which can be found on the System's website at www.nystrs.org.

Note 8- Pension plans (continued)

ERS provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. NYSRSSL govern obligations of employers and employees to contribute, and benefits to employees. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. ERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to NYSERS, Office of the State Comptroller, 110 State Street, Albany, New York 12244 or by referring to the ERS Comprehensive Annual Report, which can be found at www.osc.state.ny.us/retire/publications/index.php.

Funding policies:

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0% to 3.5% of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education Law. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions for the ERS' fiscal year ended March 31. The District paid 100% of the required contributions as billed by the TRS and ERS for the current year and each of the two preceding years.

The District's share of the required contributions, based on covered payroll paid for the District's year ended June 30, was:

	 NYSTRS		NYSERS
2016-2017	\$ 1,320,050	\$	384,544
2015-2016	1,590,279		408,204
2014-2015	2,020,534		458,711

Since 1989, the NYSERS billings have been based on Chapter 62 of the Laws of 1989 of the State of New York. This legislation requires participating employers to make payments on a current basis, while amortizing existing unpaid amounts relating to the System's fiscal years ending March 31, 1988 and 1989 over a 17-year period, with an 8.75% interest factor added. Local governments were given the option to prepay this liability. The District exercised that option.

Effective July 1, 2008, the District adopted a compensatory agreement relating to an additional compensation clause in the Superintendent's contract. This plan called for the District to contribute \$3,000 annually to the 403(b)(7) retirement plan and was still applicable as of June 30, 2017.

Note 8- Pension plans (continued)

<u>Pension Assets, Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of</u> Resources Related to Pensions

At June 30, 2017, the District reported the following liability for its proportionate share of the net pension liability for each of the Systems. The net pension liability was measured as of June 30, 2016 for TRS and March 31, 2017 for ERS. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the TRS and ERS Systems in reports provided to the District

	ERS		 TRS
Actuarial valuation date		3/31/2017	6/30/2016
Net pension asset/ (liability)	\$	(989,497)	\$ 544,637
District's portion of the Plan's total			
net pension asset/ (liability)		0.0105308%	0.072398%

For the year ended June 30, 2017, the District's recognized pension expense (credit) of \$1,287,175 for TRS and \$576,463 for ERS. At June 30, 2017, the District's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflow of resources			Deferred inflow of resour				
		ERS		RS	ERS	<u> </u>		TRS
Differences between expected and actual experience	\$	24,796	\$	-	\$ 150	,261	\$	251,898
Changes of assumption		338,048	4,4	117,248		-		-
Net difference between projected and actual earnings on pension plan investments		197,643	1,7	743,537		-		-
Changes in proportion and differences between the District's contributions and proportionate share of contributions		28,992		44,040	2	,321		15,310
District's contribution subsequent to the measurement date		-		-		-		1,320,050
Total	\$	589,479	\$ 6,2	204,825	\$ 152	,582	\$	1,587,258

Note 8- Pension plans (continued)

District contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended:	ERS	TRS
2017	\$ 196,949	\$ 543,884
2018	196,949	543,884
2019	176,260	1,897,963
2020	(133,260)	1,476,669
2021	-	679,716
Thereafter	-	795,503
	\$ 436,898	\$ 5,937,619

Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

	ERS	TRS
Measurement date	March 31, 2017	June 30, 2017
Actuarial valuation date	April 1, 2016	June 30, 2016
Interest rate	7%	8%
Salary scale	3.80% - 4.50%	1.90%-4.72%
Decrement tables	April 1, 2010- March 31, 2015 System's Experience	July 1, 2005- June 30, 2010 System's Experience
Inflation rate	2.50%	2.50%

For TRS, annuitant mortality rates are based on July 1, 2005 – June 30, 2010 System's experience with adjustments for mortality improvements based on the Society of Actuaries' Scale AA. For ERS, annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2014. For TRS, the actuarial assumptions used in the June 30, 2015 valuation are based on the results of an actuarial experience study for the period July 1, 2005 – June 30, 2010. For ERS, the actuarial assumptions used in the April 1, 2016 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015.

Note 8- Pension plans (continued)

The long-term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

<u>ERS</u>	TRS
3/31/2017	6/30/2016
36%	37%
16%	18%
10%	10%
10%	7%
0%	17%
0%	2%
17%	8%
0%	1%
3%	0%
1%	0%
4%	0%
3%	0%
100%	100%
	3/31/2017 36% 16% 10% 0% 0% 17% 0% 3% 1% 4% 3%

Discount Rate

The discount rate used to calculate the total pension liability was 7.5% for TRS and 7% for ERS. The projection of cash flows used to determine the discount rate assumes that contributions form plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 8- Pension plans (continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 8% for TRS and 7% for ERS, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7% for TRS and 6% for ERS) or 1 percentage point higher (9% for TRS and 8% for ERS) than the current rate:

ERS	1%	Current	1%
	Decrease	Assumption	Increase
	(6%)	(7%)	(8%)
Employer's proportionate share of the net pension asset (liability)	\$ (3,160,257)	\$ (989,497)	\$ 845,877
TRS	1% Decrease (6.5%)	Current Assumption (7.5%)	1% Increase (8.5%)
Employer's proportionate share of the net pension asset (liability)	\$ (10,117,030)	\$ 544,637	\$ 7,059,845

Payables to the Pension Plan

For TRS, employer and employee contributions for the fiscal year ended June 30, 2017 are paid to the System in September, October and November 2017 through a state aid intercept. Accrued retirement contributions as of June 30, 2017 represent employee and employer contributions for the fiscal year ended June 30, 2017 based on paid TRS covered wages multiplied by the employer's contribution rate and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2017 amounted to \$1,447,807.

For ERS, employer contributions are paid annually based on the System's fiscal year, which ends on March 31st. Accrued retirement contributions as of June 30, 2017 represent the projected employer contribution for the period of April 1, 2017 through June 30, 2017 based on paid ERS covered wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2017 amounted to \$110,196 of employer contributions. Employee contributions are remitted monthly

Note 9 – Other post-employment benefits

The District provides post-employment (health insurance, life insurance, etc.) coverage to retired employees in accordance with the provisions of various employment contracts. The benefit levels, employee contributions and employer contributions are governed by the District's contractual agreements.

The District implemented GASB Statement 45, Accounting and Financial Reporting by employers for Postemployment Benefits Other than Pensions. This requires the District to calculate and record a net other postemployment benefit obligation at year-end. The net other postemployment benefit obligation is basically the cumulative difference between the actuarially required contribution and the actual contributions made.

Note 9- Other post-employment benefits (continued)

The District recognizes the cost of providing health insurance annually as expenditures in the General Fund of the funds financial statements as payments are made. For the year ended June 30, 2017, the District recognized \$740,055 for its share of insurance premiums for currently enrolled retirees.

The District has obtained an actuarial valuation report as of July 1, 2016 which indicates that the total liability for other post-employment benefits is \$18,398,423. As of June 30, 2017, the annual required contributions, net of interest, adjustments and contributions made is \$3,430,009, which is reflected as a liability in the Statement of Net Position.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the plan:

Annual required contribution	\$ 3,745,753
Interest on net OPEB obligation	485,027
Adjustment to annual required contribution	(800,771)
Annual OPEB cost	3,430,009
Contributions made	(1,199,144)
Increase in net OPEB obligation	2,230,865
Net OPEB obligation—beginning of year	16,167,558
Net OPEB obligation—end of year	\$ 18,398,423

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the years ended June 30, 2015, 2016 and 2017 were as follows:

		% of Annual	
	Annual	OPEB Cost	Net OPEB
Fiscal year ended	 OPEB Cost	Contributed	Obligation
	 <u>.</u>		_
June 30, 2017	\$ 3,430,009	35%	\$ 18,398,423
June 30, 2016	\$ 3,459,814	38%	\$ 16,167,558
June 30, 2015	\$ 3,430,243	36%	\$ 14,035,798

Note 9- Other post-employment benefits (continued)

Funded Status and Funding Progress

As of July 1, 2016, the most recent actuarial valuation date, the plan was unfunded. The actuarial accrued liability for benefits was \$47,081,975, and there were no assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$47,081,975. The covered payroll (annual payroll of active employees covered by the plan) was \$13,259,573, and the ratio of the UAAL to the covered payroll was 355%. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2016 actuarial valuation report, the projected unit credit method was used. The actuarial value was determined as the accumulation of prior accruals, less benefits paid. The actuarial assumptions included a 3% investment rate of return (net of administrative expenses). Additional actuarial assumptions included an annual healthcare cost trend rate of 7.5% initially, decreasing .5% per year to an ultimate rate of 4.5% in 2022. The UAAL is being amortized as a level dollar amortization of projected payroll on an open basis. The remaining amortization period at June 30, 2017, was 24 years.

Note 10 – Risk management

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

Workers' Compensation:

The District incurs costs related to the Onondaga-Cortland-Madison BOCES Workers' Compensation Plan (Plan) sponsored by the Board of Cooperative Educational Services. The Plan's objectives are to furnish workers' compensation benefits to participating districts at a significant cost savings. Membership in the Plan may be offered to any component district of the BOCES with the approval of the Board of Directors. Voluntary withdrawal

Note 10 – Risk management (continued)

from the Plan may be effective only once annually on the last day of the Plan year as may be established by the Board of Directors. Notice of the Intention to Withdrawal must be given in writing to the Chairman of the Board of Directors and the Treasurer not less than one year prior to the end of the Plan year.

Plan membership is currently comprised of thirty-one districts. If a surplus of participants' assessments exists after the close of a Plan year, the Board may retain from such surplus an amount sufficient to establish and maintain a claim contingency fund. Surplus funds in excess of the amount transferred to or included in such contingency fund shall be applied in reduction of the next annual assessment or to the billing of Plan participants. All monies paid to the Treasurer by participants shall be commingled and administered as a common fund. No refunds shall be made to a participant and no assessments shall be charged to a participant other than the annual assessment.

However, if it appears to the Board of Directors that the liabilities of the Plan will exceed its cash assets, after taking into account any "excess insurance", the Board shall determine the amount needed to meet such deficiency and shall assess such amount against all participants pro-rata per enrollee.

The Plan purchases, on an annual basis, stop-loss insurance to limit its exposure for claims paid. The Plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses.

However, because actual claims costs depend on complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and claims that been incurred but not reported. Adjustments to claims liabilities are charged or credited to expenses in the periods in which they are made. During the year ended June 30, 2017, the District incurred premiums or contribution expenditures totaling \$231,602.

The Plan is audited on an annual basis and is available at the BOCES administrative offices. The most recent audit available for the year ended June 30, 2017. The District's outstanding case reserves at June 30, 2017 approximated \$289,000.

Note 11 - Commitments and contingent liabilities

The District has received grants, which are subject to audit by agencies of the State and Federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior years' experience, the District's administration believes disallowances, if any, will be immaterial.

Note 12 - Subsequent events

Management has evaluated subsequent events through September 18, 2017, which is the date the financial statements were available to be issued.
