

Solvay Community,

As you are aware the Pfizer COVID-19 vaccine has been approved for the 5-11 age group. In collaboration with Onondaga County and Wegmans Pharmacy, a COVID-19 vaccine clinic will be held at *Solvay Elementary School* for children *ages 5-11 only* on *Thursday, December 16th from 4:00-8:00 pm*.

The registration for this event as well as the vaccination clinic is being handled by Wegmans. If you would like to register your child please do the following:

1. [Registration Link](#) (through Wegmans) - Be sure to register for the clinic at Solvay Elementary (all of the clinics being hosted by Wegmans are available through the same link)
2. Please register as soon as possible. Once all the spots are filled the link will become inactive.
3. As the Pfizer vaccine requires two doses to achieve full vaccination, each person participating in the first clinic will automatically receive their registration for their second dose at the first appointment.
4. Please be prepared to show an insurance card if you have one. However, this is a free clinic and you will not be charged for the vaccine regardless of insurance coverage.
5. Children must be accompanied by a parent. If a parent or guardian is not able to come, a note may be provided to give permission for another adult to accompany the child.
6. If a child is under COVID-19 quarantine, they may not attend the vaccination clinic.

Thank you in advance for your cooperation in helping to get our eligible students vaccinated.

If you have a specific question, please submit it by calling the District's COVID-19 hotline (315-468-7058), email covid19@solvayschools.org or contact the main office of any of our buildings.

Thank you.

Jay Tinklepaugh
Superintendent of Schools
