

Family Workshops

Whether you're looking to boost your parenting toolkit or prepare for your child's educational journey, these trainings offer practical guidance and empowering support. Don't miss out!

What is an Individualized Education Program for Families of Preschool Students

September 17th from 8:30am-10:30am

This training is designed to give families an easy-to-understand overview of what to expect when developing an IEP at the preschool level.

- Learn the basics of the preschool IEP process
- Understand your role and your child's rights
- Gain practical knowledge to better support young learners

What Makes Special Education So Special: Specially Designed Instruction (SDI)- A Guide for Families and Caregivers

September 30th from 6:00pm-7:30pm

SDI is the teaching strategies and methods used by teachers to instruct students who receive special education services. In this training participants will:

- Understand the concepts of specially designed instruction
- Be able to examine what SDI might look like in the classroom and in the home
- Understand their value as engaged meaningful partners in the special education process & education of their child

Positive Solutions for Families

Virtual 2-part series on Zoom

October 1st from 11:00am-12:30pm

October 15th from 11:00am-12:30pm

- Learn how to strengthen your child's social emotional skills
- Understand their challenging behaviors
- Use positive approaches to teach positive behavior and learn powerful prevention strategies
