

# HERDS: 2023 School Lead in Drinking Water Reporting

New York State Dept. of Health

Activity :	<b>2023-2025 School Lead in Drinking Water Reporting</b>	Name :	<b>SOLVAY H S (420702030004)</b>
Organization :	<b>SOLVAY H S</b>	Address 1 :	<b>600 GERTRUDE AVE</b>
Form :	<b>2023 School Lead in Drinking Water Reporting</b>	Address 2 :	
Data Entity		City :	<b>SOLVAY</b>
Type :	<b>Schools - Public</b>	State & Zip :	<b>NY-13209</b>
Name :	<b>SOLVAY H S</b>	County :	<b>Onondaga (067)</b>
Time Period :		Region :	<b>Central Regional Office</b>
		Phone & Fax:	

*Please update and submit this form as additional results are received.*

*Questions in red text should be updated as remediation is performed, and post-remediation lead results are received.*

*The information you provide will be made available to the public on Health Data NY (<https://health.data.ny.gov/>). The data displayed on Health Data NY is updated periodically.*

*For assistance with completing this form, please email the NYS Department of Health at [lead.in.school.drinking.water@health.ny.gov](mailto:lead.in.school.drinking.water@health.ny.gov). Additional information is available at [https://www.health.ny.gov/environmental/water/drinking/lead/lead\\_testing\\_of\\_school\\_drinking\\_water.htm](https://www.health.ny.gov/environmental/water/drinking/lead/lead_testing_of_school_drinking_water.htm).*

*If you have technical questions about the lead testing in school drinking water regulation, please contact your local health department (LHD). Copy and paste the following link for an interactive map that has links to contact information for each LHD: [http://www.health.ny.gov/environmental/water/drinking/doh\\_pub\\_contacts\\_map.htm](http://www.health.ny.gov/environmental/water/drinking/doh_pub_contacts_map.htm)*

*If applicable, the lead remediation reimbursement section of the survey will be available after a school or BOCES building has:*

- 1. completed all remediation sampling and*
- 2. submitted all post-remediation sampling in this form and*
- 3. confirmed zero applicable outlets exceed the action level of 5ppb.*

*After all outlets are tested, remediated, retested, and no longer exceed the action level, question 13 can be answered as "complete".*

*Then, you will gain access to additional questions to submit information for reimbursement of remediation costs.*

*Please note, you will be required to answer all remediation questions to submit the form.*

*All remediation projects involving large scale construction must have appropriate permits from the New York State Education*

Department (NYSED).

General Information

1. I understand that the information I am reporting is for the lead testing in school drinking water program for the 2023-2025 compliance period. [Yes]

\*

2. Enter the website address where the laboratory reports are posted for the results of your school's lead testing of drinking water program.

www.solvayschools.org

Sampling Information

3. I acknowledge that all samples must be analyzed by an environmental laboratory certified by the NYS DOH's Environmental Laboratory Approval Program (ELAP) to conduct lead in drinking water analysis. [Yes]

4. How many total outlets have been identified by the school that require sampling for lead?

47

5. How many outlets were sampled for initial first-draw compliance testing in 2023?

0

6. How many outlets were sampled for initial first-draw compliance testing in 2024?

0

7. How many outlets were sampled for initial first-draw compliance testing in 2025?

47

8. Is all sampling complete for the 2023-2025 compliance period? [Yes]

Lead Results

9. Enter the total number of outlets with a lead result less than or equal to the action level (5 ppb):

40

(This number should be updated throughout the compliance period to reflect the current number of outlets with a lead test result less than or equal to 5 ppb).

10. Enter the total number of outlets with a lead result greater than the action level (5 ppb):

7

(This number should be updated throughout the compliance period to reflect the current number of outlets with a lead test result greater than 5 ppb).

11. Has your school received laboratory reports for all initial first-draw samples collected for this compliance period? [Yes]

Response and Remediation

12. Have the outlets with lead results greater than the [Yes]

action level (5 ppb) been taken out of service, remediated, or are appropriate controls in place to ensure water is not used for drinking or cooking?

13. Identify the status of remediation. (Examples of remediation include but are not limited to: permanent removal of outlets; replacing outlets and/or plumbing; or employing other engineering controls). [Complete]

Once you select complete, if applicable, you will be required to complete all questions in the Remediation Reimbursement section in order to submit your responses. If you do not have the remediation reimbursement data ready to enter, please do not select 'Complete'.

Lead remediation reimbursement will be available after a school or BOCES building has completed all remediation and post-remediation sampling for all outlets reported in this form and zero applicable outlets exceed the action level of 5ppb. After all outlets are remediated, retested, and no longer exceed the action level, question 13 can be answered as "complete". Then, you will gain access to additional questions to submit information for reimbursement of remediation costs. All remediation projects involving large scale construction must have appropriate permits from the New York State Education Department (NYSED).

14. Does the selected remediation method(s) require a permit from NYSED? [No]

[N/A]

14a. If yes, has the permit been granted?

If the answer is not yes, please pursue permitting prior to submission of reimbursement request.

15. Total number of outlets permanently removed:	0
16. Total cost of outlets permanently removed (round to the nearest dollar):	0
17. Number of outlets remediated with signage:	1
18. Total cost of "Do Not Drink" or equivalent signage purchased and installed (round to the nearest dollar):	0
19. Number of outlets remediated with engineering controls:	0
20. Total cost of engineering controls purchased and installed (round to the nearest dollar):	0
21. Number of point of use water filter units purchased and installed:	0
22. Total cost of point of use water filter units purchased and installed (round to the nearest dollar):	0
23. Number of taps purchased and installed:	0
24. Total cost of taps purchased and installed (round to the nearest dollar):	0
25. Number of fountains/bubblers purchased and	0

# HERDS: 2023 School Lead in Drinking Water Reporting

New York State Dept. of Health

installed:

26. Total cost of fountains/bubblers purchased and installed (round to the nearest dollar):

0

27. Number of outlets remediated using other methods:

0

28. Description of other methods of remediation:

not applicable

29. Explain why these methods were used rather than any of the other methods:

not applicable

30. Total cost of remediation using other methods (round to the nearest dollar):

0

31. Number of post-remediation samples collected:

0

32. Total cost of post-remediation samples (round to the nearest dollar):

0

33. Total number of outlets remediated:

0

34. Total reimbursement being sought for this building (round to the nearest dollar):

0

35. Contact name and title:

Chris Boiselle, Director of Facilities

(For example, "John Smith, Director of Facilities").

36. Contact email address:

cboiselle@solvayschools.org

37. Contact phone number:

315-468-7035

## Attestation

By clicking the 'Save and Submit' button, I attest that all the data entered above is true and correct to the best of my knowledge, that I understand such information shall be used for assessing regulatory compliance, and that I am authorized to submit this data on behalf of the school district or BOCES. I acknowledge the need for mitigation of school fixtures as necessary, due to the finding of elevated lead in tap water (greater than 5 ppb) as detailed above, and that the costs for mitigation as described above are necessary and adequate to address any lead exceedance in the drinking water.

Furthermore, I acknowledge that any remediation reimbursement will require an affidavit from the Superintendent or Chancellor in accordance with the certification requirements stated in Form FB of the State Aid Management System, and that the Superintendent, Chancellor or other designated representative will use the remediation reimbursement claims made here when completing said affidavit.

*\*Required Fields. \*\* Repeatable Sections.*

## Form Rules:

- [1] 36. Contact email address: IS IN A FORMAT OF Valid\_Email\_Address
- [2] 33. Total number of outlets remediated: CANNOT BE GREATER THAN 4. How many total outlets have been identified by the school that require sampling for lead?
- [3] 37. Contact phone number: IS IN A FORMAT OF phone\_number(999-999-9999)
