

A Key to Success

You might be questioning why there is just a picture of a student reading a book at a desk. This picture could represent different things and different meanings. To me this image represents that the student is studying in a quiet room and focusing without any distraction going on. When a room is quiet without distractions I am able to get my work done. The key point to help me succeed in school is working in a place that is best suited for me. I feel that if others work in a place that best fits their needs to be successful, it will better them in the long run. Others may believe that working in an atmosphere that has distractions can still let them get their work complete, but for me, working in an atmosphere with no distractions helps me to stay more focused and be able to get work done that needs to be completed. Working in an atmosphere that is quiet helps me become more successful in school.
